WHAT INFLUENCES OUR RESIDENT’S HEALTH?

Public Health focuses on the overall improvement of life:
Henry County Health Center (HCHC) employees’ work ranges from analyzing health trends in the community, to preventing the spread of communicable diseases. HCHC believes that everyone deserves a chance to lead a healthy and happy life, therefore, we are focused on attaining the highest level of health for all Henry County (HC) residents.

The HCHC Strategic Plan is focused on developing and sustaining programs that align with our mission and with the needs that are identified in our Community Needs Assessment. HCHC is also focused on developing good working relationships with partners in the community that will increase the odds of long-term change.

HCHC Mission:
“To protect the health and promote the wellness of the community”.

HCHC Annual Report 2021
Program Operations:
The community and site-based programs provided by HCHC include:

- Nursing Services
- Women Infants and Children (WIC)
- Epidemiology
- Communicable Diseases
- Safe Cribs Program & Car Seat Installation
- Birth and Death Certificates/Vital Records
- Environmental Food Safety and Septic
- Community Outreach Programs
- Children and Youth with Special Health Care Needs
- Safe Cribs
